

Great Barrier  
Reef Foundation

REEF  
Champions

*Develop your people  
and dive deeper to  
help the Reef*

# The Great Barrier Reef is *our* national treasure. It *deserves* to be treasured.

Through membership of the Great Barrier Reef Foundation's Chairman's Panel, your company is leading the way in helping fund vital research to ensure a Reef for future generations.

---

*Together we can achieve more.*

## Become a Reef Champion

---

Reef Champion companies care about combining team building, leadership development and staff recognition, with contributing to a global environmental imperative – helping one of the world's natural wonders. Unique learning and networking activities to reward, connect and inspire your people will have a lasting impact through hands-on events grounded in the science that's protecting and restoring the Reef.

## People Focussed

---

### Develop Skills

- Leadership
- Negotiation
- Problem solving
- Strategy development
- Lateral thinking
- Communication
- Collaboration
- Networking
- Time management

### Deliver Benefits

- Leadership development
- Reward and recognition for good work
- Giving back to the community
- Contributing to Great Barrier Reef
- Hands-on fun with purpose

# ReefBlitz Corporate Challenge

## Lady Elliot Island, October

Your five-member corporate team will tackle a range of on-beach and in-water activities and challenges with experienced guides, taking on other corporate teams vying for the winner's trophy. As well as engaging teamwork, problem-solving, negotiation and networking skills, ReefBlitz is a unique opportunity to meet and learn from the experts leading the cutting-edge scientific research on the Reef – a meaningful experience with real impact. (Additional team entries available at a small cost.)

## Boardroom Science

### Virtual dive

Experience one of the seven natural wonders of the world without getting your feet wet! Using the latest VR technology, immerse your team in five inspiring underwater dives.

### Dial a diver

Speak to a scuba diver in action. Through reef videoconferencing technology, you can chat to a researcher diving with the marine life in Reef HQ's Coral Reef and Predator exhibition on the Great Barrier Reef in Townsville.

### Get hands on

Explore the impact of extreme weather and human activity on the Reef with a collection of artefacts and specimens. A chance to talk through current knowledge, claims, explanations and predictions.

### Under the microscope

Zoom in to see sand and water like you've never seen them before. Sand is a reflection of the biology and geology of an area and no two samples are the same. You'll be truly amazed at the wonders revealed in a single drop of seawater!

# REEF

*Champions*

Inspiring people |  
Developing leaders

---

Funds from the Reef Champions program are invested in priority projects to help protect and restore the Great Barrier Reef.
